

Family Accounts

Overview:

GotSoccer allows parents or guardians to create an umbrella account we call a family account. With this account a parent or guardian can manage multiple players using a single user id and password. Each Player must have an individual player account with a unique user id, passwords may be common for all accounts. These player account (profiles) can be imported into the account or created from within the account.

Family accounts offer more than just ways to manage multiple player accounts from one login. They are the vehicle by which clubs offer multiple player discounts. You can only get multi player discounts, if offered, by using the family account.

How do I create a family account?

1. When you click the link for any Gotsoccer client registration program we will offer the registrant the ability to create a family account. You can also go to Gotsoccer.com and click on the Family Accounts login link.
